

Study Skills & Revision Tips

Revision: The action or process of going over a subject or work already learnt or done with the aim of reinforcing it.

Revision doesn't have a great reputation. Lots of students try to avoid it, putting it off as much as they can. We've got some tips to try and make revision a bit more fun and effective for you.

Before you start

Find out when the exam is and what topics you need to cover.

Where do you study best?

At home? A library? On your own? With others?

Ensure that, wherever you study, it is **well-lit**, **comfortable**, has **minimal distractions** and you have **everything you need to hand**.

What kind of learner are you?

Visual

Learn best by seeing and reading things. You might be better at subjects like English and Art.

Auditory

Learn best by listening. You might enjoy Languages or Music.

Kinaesthetic

Learn best by doing. Science or PE might be your best subjects.

Revision Tips

Depending on the type of learner you are, you can tailor what activities you use to revise in order for it to be more effective.

When?	Topic	Activity	Notes
Monday	Maths	Practice papers	Completed papers from 2014, 2013 and 2012- need to work on algebra
Tuesday	English	Read/annotate Macbeth	Get to the end of Act One
Wednesday	History	After school revision club	
Thursday	Biology	Study group with friends	Made flashcards to test each other
Friday	Chemistry	Make posters	Good with the periodic table, need to go over metals
Saturday AM	IT	Coursework	Finished section 2
Saturday PM	Physics	Listen to podcasts	Find out more about oscillating and steady state theories
Sunday AM	French	Speaking practice	Need more practice with the conditional tense
Sunday PM	Psychology	Mind maps from revision notes	Made notes on topics from the Assessment term
